Financial Assistance Mechanism: Cooperative Agreement

Substantial Involvement by CDC: This is a cooperative agreement and CDC will have substantial programmatic involvement after the award is made. Substantial involvement is in addition to all post-award monitoring, technical assistance, and performance reviews undertaken in the normal course of stewardship of federal funds.

CDC program staff will assist, coordinate, or participate in carrying out effort under the award, and recipients agree to the responsibilities therein, as detailed in the NOFO. CDC program support to recipients will help ensure the success of the cooperative agreement by:

- Collaborating across CDC divisions and programs to provide team based technical assistance to grantees.
- Engaging subject matter experts across relevant areas of expertise when needed.
- When feasible, project officers will strive to hold technical assistance calls with a team of experts from across the NCCDPHP portfolio who can assist states in areas (e.g., policy, communications, health systems, etc.) common to this program and one or more other programs.
- Jointly developing and/or disseminating resources and tools that focus on crosscutting functions, settings, risk factors, conditions and diseases to ensure consistent messages and to meet grantee technical assistance needs.
- Planning joint site visits with other NCCDPHP programs, when possible. Collaborative site visits will include agenda items relevant to all included programs, as well as break out times for individual programs to meet with individual program staff.

If the GMO determines that some or all of the unobligated funds are not necessary to complete the project, the GMO may restrict the recipient's authority to automatically carry over unobligated balances in the future, use the balance to reduce or offset CDC funding for a subsequent budget period, or use a combination of these actions.
