1. Terms and Conditions

AWARD INFORMATION

Incorporation: In addition to the federal laws, regulations, policies, and CDC General Terms and Conditions for Non-research awards at <https://www.cdc.gov/grants/federalregulationspolicies/index.html>, the Centers for Disease Control and Prevention **CDC-RFA-DP18-1807, entitled State Physical Activity and Nutrition Program**, and application dated April 12, 2021, as may be amended, which are hereby made a part of this Non-research award, hereinafter referred to as the Notice of Award (NoA).

Approved Funding: Funding in the amount of **\$884,164** is approved for the Year 04 budget period, which is September 30, 2021 through September 29, 2022. All future year funding will be based on satisfactory programmatic progress and the availability of funds.

The federal award amount is subject to adjustment based on total allowable costs incurred and/or the value of any third-party in-kind contribution when applicable.

Note: Refer to the Payment Information section for Payment Management System (PMS) subaccount information.

Financial Assistance Mechanism: Cooperative Agreement

Substantial Involvement by CDC: This is a cooperative agreement and CDC will have substantial programmatic involvement after the award is made. Substantial involvement is in addition to all post-award monitoring, technical assistance, and performance reviews undertaken in the normal course of stewardship of federal funds.

CDC program staff will assist, coordinate, or participate in carrying out effort under the award, and recipients agree to the responsibilities therein, as detailed in the NOFO.

CDC will have substantial involvement beyond site visits and regular performance and financial monitoring during the period of performance. CDC activities are intended to ensure the success of the project and will include the following:

- Provide ongoing technical assistance.
- Provide SPAN implementation guidance to recipients on identifying and implementing strategies and activities
- Facilitate collaborative opportunities with other CDC funded NOFO national and state partners.
- Promote information sharing between recipients:
 - Facilitate routine conference calls, webinars, and other informational exchange.
 - Develop mechanism for documenting and sharing lessons learned.
- Convene recipient trainings.

Additionally, CDC will:

- Ensure that recipients have access to expertise found throughout NCCDPHP.
- Collaborate with recipients to explore appropriate flexibilities needed to meet public health outcomes and goals. Flexibility in cooperative agreements includes recipient's ability to propose alternative methods to achieve the outcomes and goals of the cooperative agreement that align with recipient's opportunities for success, infrastructure, partner and stakeholder buy-in, demographics, and burden. This includes bringing together resources from multiple

cooperative agreements to jointly advance the goals of each and expanding the dialogue to bring in other CDC and recipient staff to reach a win/win solution.

- Create greater efficiencies and consistency across NCCDPHP programs. For example,
 - Jointly developed resources and tools that focus on cross-cutting functions, settings, domains, risk factors, conditions and diseases to ensure consistent messages and to meet technical assistance needs.
 - Joint training and technical assistance opportunities that help recipients produce policies and programs that are more holistic and fully supportive of work in tobacco, nutrition, physical activity, chronic disease management and other strategies and topics, as appropriate.
- Continue and expand support for recipients to leverage NCCDPHP resources to address cross-cutting functions, domains, settings, risk factors, and diseases.

Expanded Authority: The recipient is permitted the following expanded authority in the administration of the award.

- Carryover of unobligated balances from one budget period to a subsequent budget period. Unobligated funds may be used for purposes within the scope of the project as originally approved. Recipients will report use, or intended use, of unobligated funds in Section 12 "Remarks" of the annual Federal Financial Report. If the GMO determines that some or all of the unobligated funds are not necessary to complete the project, the GMO may restrict the recipient's authority to automatically carry over unobligated balances in the future, use the balance to reduce or offset CDC funding for a subsequent budget period, or use a combination of these actions.

FUNDING RESTRICTIONS AND LIMITATIONS

Notice of Funding Opportunity (NOFO) Restrictions: Restrictions that must be considered while planning the programs and writing the budget are:

- Recipients may not use funds for research.
- Recipients may not use funds for clinical care except as allowed by law.

See Additional Requirement (AR) 35 for applicability (<https://www.cdc.gov/grants/additionalrequirements/ar-35.html>).
