1. Terms and Conditions

AWARD INFORMATION

Incorporation: In addition to the federal laws, regulations, policies, and CDC General Terms and Conditions for Non-research awards at <https://www.cdc.gov/grants/federalregulationspolicies/index.html>, the Centers for Disease Control and Prevention (CDC) hereby incorporates Notice of Funding Opportunity (NOFO) number **CDC-RFA-DP18-1816**, entitled **Well-Integrated Screening and Evaluation for Women Across the Nation (Wise Women)**, and application dated **March 12, 2021**, as may be amended, which are hereby made a part of this Non-research award, hereinafter referred to as the Notice of Award (NoA).

Approved Funding: Funding in the amount of **\$900,000** is approved for the Year **04** budget period, which is **September 30, 2021** through **September 29, 2022**. All future year funding will be based on satisfactory programmatic progress and the availability of funds.

The federal award amount is subject to adjustment based on total allowable costs incurred and/or the value of any third-party in-kind contribution when applicable.

Note: Refer to the Payment Information section for Payment Management System (PMS) subaccount information.

Component/Project Funding: The NOFO provides for the funding of multiple components under this award. The approved component funding levels for this notice of award are:

NOFO Component	Amount
Core	\$900,000
Innovative	\$0

Financial Assistance Mechanism: Cooperative Agreement

Substantial Involvement by CDC: This is a cooperative agreement and CDC will have substantial programmatic involvement after the award is made. Substantial involvement is in addition to all post-award monitoring, technical assistance, and performance reviews undertaken in the normal course of stewardship of federal funds.

CDC program staff will assist, coordinate, or participate in carrying out effort under the award, and recipients agree to the responsibilities therein, as detailed in the NOFO.

- Supporting recipients in implementing cooperative agreement requirements and meeting program outcomes;
- Providing technical assistance to revise annual work plans;
- Assisting recipients in advancing program activities to achieve project outcomes;
- Providing scientific subject matter expertise and resources in support of the selected strategies;
- Collaborating with recipients to develop and implement evaluation plans that align with CDC evaluation activities;

- Providing technical assistance on recipients' evaluation and performance measurement plans
- Providing technical assistance to define and operationalize performance measures;
- Using webinars and other social media for recipients and CDC to communicate and share tools and resources;
- Establishing learning communities to facilitate the sharing of information among recipients;
- Providing professional development and training opportunities – either in person or through virtual, web-based training formats – for the purpose of sharing the latest science, best practices, success stories, and program models;
- Participating in relevant meetings, committees, conference calls, and working groups related to the cooperative agreement requirements to achieve outcomes;
- Coordinating communication and program linkages with other CDC programs and Federal agencies, such as the Health Resources and Services Administration (HRSA), Centers for Medicare & Medicaid Services (CMS), Indian Health Service (IHS), and the National Institutes of Health (NIH);
- Providing surveillance technical assistance and state-specific data collected by CDC;
- Providing technical expertise to other CDC programs and Federal agencies on how to interface with recipients;
- Translating and disseminating lessons learned through publications, meetings, and other means on promising and best practices to expand the evidence base; and
- Hosting a meeting/training during the first 18 months of the period of performance and later in the period of performance (for a total of two meetings/trainings for recipients)

Additionally CDC will:

- Ensure that recipients have access to expertise found throughout the National Center for Chronic Disease Prevention and Health Promotion.
- Collaborate with recipients to explore appropriate flexibilities needed to meet public health outcomes and goals. Flexibility in cooperative agreements includes recipients' ability to propose alternative methods to achieve the outcomes and goals of the cooperative agreement that align with recipients' opportunities for success, infrastructure, partner and stakeholder buy-in, demographics, and burden. This includes bringing together resources from multiple cooperative agreements to jointly advance the goals of each, and expanding the dialogue to bring in other CDC and recipient staff to reach a win/win solution.
- Create greater efficiencies and consistency across NCCDPHP programs. For example: 1.) Jointly developed resources and tools that focus on cross-cutting functions, settings, domains, risk factors, conditions and diseases to ensure consistent messages and to meet technical assistance needs and 2.) Joint training and technical assistance opportunities that help state health departments produce policies and programs that are more holistic.
- Continue and expand support for recipients to leverage National Center for Chronic Disease Prevention and Health Promotion resources to address cross-cutting functions, domains, settings, risk factors, and diseases.
- through conference calls, site visits, reverse site visits, and webinars;
- Provide resources to support EBI implementation and high-quality data collection;
- In person trainings and meetings.

Budget Requirements: Please provide the following information by submitting a grant note in Grant Solutions as soon as this information is available:

- Once selected the TBD Contractors must be submitted in Grantsolutions as a grant note. The CDC must approve before costs for this budget category can be expended.

Expanded Authority: The recipient is permitted the following expanded authority in the administration of the award.

- Carryover of unobligated balances from one budget period to a subsequent budget period. Unobligated funds may be used for purposes within the scope of the project as originally approved. Recipients will report use, or intended use, of unobligated funds in Section 12 "Remarks" of the annual Federal Financial Report. If the GMO determines that some or all of the unobligated funds are not necessary to complete the project, the GMO may restrict the recipient's authority to automatically carry over unobligated balances in the future, use the balance to reduce or offset CDC funding for a subsequent budget period, or use a combination of these actions

FUNDING RESTRICTIONS AND LIMITATIONS

Indirect Costs: Indirect costs are not applicable to this award. ***As specified by PL 101-354, not more than 10 percent of cooperative funds awarded may be spent annually for administrative expenses. These administrative expenses are in lieu of and replace indirect costs [Section 1504(f) of the PHS Act, as amended]."

Matching Funds Requirement: The required level of non-federal participation for Recipient financial participation is required for this program in accordance with the authorizing legislation. Section 1502(a) and (b)(1), (2), and (3) of the PHS Act, as amended, requires matching funds from non-Federal sources in an amount not less than one dollar for every three dollars of Federal funds, a ratio of 3:1, awarded under this program. However, Title 48 of the US Code 1469a (d) requires DHHS to waive matching fund requirements for Guam, U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands up to \$200,000. .

Matching is generally calculated on the basis of the federal award amount and is comprised of recipient contributions proposed to support anticipated costs of the project during a specific budget period (confirmation of the existence of funding is supplied by the recipient via their Federal Financial Report). The recipient must be able to account separately for stewardship of the federal funding and for any required matching; it is subject to monitoring, oversight, and audit. The recipient may not use matching expenditures to count toward any Maintaining State Funding requirement.

When a recipient requests a carryover of unobligated funds from prior year(s), matching funds equal to the new requirement must be on record in the CDC grant file, or the recipient must provide evidence with the carryover request.

REPORTING REQUIREMENTS

Required Disclosures for Federal Awardee Performance and Integrity Information System (FAPIIS):

Consistent with 45 CFR 75.113, applicants and recipients must disclose in a timely manner, in writing to the CDC, with a copy to the HHS Office of Inspector General (OIG), all information related to violations of federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the federal award. Subrecipients must disclose, in a timely manner in writing to the prime recipient (pass through entity) and the HHS OIG, all information related to violations of federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the federal award. Disclosures must be sent in writing to the CDC and to the HHS OIG at the following addresses:
