## 2012-2013 Seasonal Influenza Vaccine

Dosage for Children 6 Months through 8 Years of Age

## Use this chart to check how many doses an individual needs.

†The figure above shows influenza vaccine dosing algorithm for children 6 months through 8 years of age, during the 2012-13 influenza season. Children are recommended to receive 2 doses this season, even if 2 doses of seasonal influenza vaccine were received before the 2010-11 season.
